

WOLFPACK

# 360° RF DRONE DETECTION AND DRONE LOCATION

MYDEFENCE

# WOLFPACK

A 360° RF drone detector that is capable of providing drone detection as a standalone information to the user. Wolfpack is designed for both portable and fixed deployment.

Use two or more wolfpacks to obtain accurate drone and pilot location, anytime, day or night.

WOLFPACK is a 360° RF sensor capable of providing information to the user by searching for control signals and video feeds from drones.

WOLFPACK is suited for stationary installations such as perimeter protection at prisons, military camps, mounted on vehicles or sea vessels. As a standalone unit, it detects and in collaboration it enables triangulation of drones in larger areas.

## Capability

The WOLFPACK drone detection system is lightweight and portable. It's lightweight design makes installations on buildings, tripods etc. easy and straight forward.

The WOLFPACK is simple to configure and setup. WOLFPACK was designed with operational focus. It is literally a plug and play design and you will be operational within minutes. The 360° coverage and intelligent signal analysis helps to detect the threat direction, and manufacturer of drone. All the information is displayed on our user-friendly interface IRIS.

PARAMETER	SPECIFICATION
Weight	5 kg
Dimensions (DxWxH)	H: 26 cm, D: 31,5 cm
Color	Gray/Custom
Operating temperature	-30° to +60°C
Frequency bands	433 MHz, 868 MHz, 915 MHz, 1.2 GHz, 2.4 GHz, 5.2 GHz, 5.8 GHz
Power supply	12-15V DC (115/230V AC power supply included)
Coverage angles	360°
Detection time	5 - 10 seconds
Detection range	Up to 4 km*
IP rating	IP66

\* Depending on RF Environment

## Features developed with the user

WOLFPACK is designed with simplicity in mind. It's Size, Weight and Power provide a competitive edge.

New feature updates are made available on a regular basis and are driven by customer feedback.

WOLFPACK is easy to interface with existing security infrastructure, either through our plug-and-play user interface or on a protocol level – and requires only 2 cables.
